Re: Highland and Shari Street Reconstruction Project

Dear Property Owner or Resident:

Spencer Contracting has been hired by the City of Des Peres to reconstruct both Highland and Shari. The project will begin Monday July 25, 2022 with storm sewer installation and concrete curb installation to follow later in the week. During this project the street will be closed to thru traffic but will be open to residents only. The road will be opened back up at the end of each working day. Following the storm sewer and curb work, the project will continue with a full depth reclamation and asphalt paving of the road.

During construction, you may have to enter from either the north or south, depending on areas of closure. While parking on Highland is generally a bad idea, we want to discourage that practice during roadwork.

Please be patient during construction. There will be times when trucks are being loaded/unloaded or concrete is being poured, when access will be delayed. During the reclamation and paving processes, the road will be closed for the day, but reopened in the evening. Pay attention to signs, barricades, and workers when driving through the construction zone. If barricades are up for repairs, do not move them. We will move barricades when it is safe to do so. Safety is top priority. Normal working hours are from 7:00 am – 5:00 pm Monday thru Friday. Thank you for your cooperation.

Questions or comments can be sent to [alex@spencercontracting.com](mailto:alex@spencercontracting.com). If you need immediate assistance please call the office number at the top of the page and ask for Alex. The city will provide updates at [www.desperesmo.org/projects](http://www.desperesmo.org/projects) and on electronic message panels throughout the project.
